

## Spring Is Just Around the Corner

**D**EAR ZEPHYRISTS,  
 We are smack in the middle of winter, and yet I can't help but dream of the promise of spring and all that it will bring us. Making plans to attend the **Lukan's Farm** meet in early June (see page 26), I am hearing reports of a promised 25-plus car turnout! This might be one to check out for some pre-summer meet action. This is a joint meet of LZOC and the Lincoln Owners Club.

Next, the **Lincoln Homecoming** in August offers a great escape and the opportunity to see your museum in Hickory Corners, Michigan. If you have not yet made the journey to Hickory Corners, we promise one of the finest gatherings of HV-12 Lincolns under one roof—not to mention the goings-on outside and elsewhere at the fabulous Gilmore. It's not to be missed—make your plans now!

We lost **Ed Avedisian** (LZOC #4074) on December 7th of last year. Previously we reported his generous donation of his 1941 Lincoln-Zephyr Convertible Coupe to the Lincoln Motor Car Heritage Museum. Ed was a first-class Zephyrist whose generosity is legendary. He also gave a large sum of money to support our digitization of Zephyr manuals and brochures, part of your museum's research library function that will benefit us all in the very near future. Thank you, Ed and Pam Avedisian!

Our dedicated LZOC treasurer, **Lee Craig**, will be stepping down mid-year after a long run. We thank him for his service to our club! We now seek a Zephyrist who can take over the club's financial responsibilities to keep us humming. Please reach out regarding this opportunity to serve LZOC.

Best in the coming months!

Happy Zephyring,

JIM BLANCHARD

It's silly to wait until the car overheats to clean out the radiator. You waste power and fuel. And you may be heading for an expensive repair bill.

Don't wait! Use Sani-Flush regularly at least twice a year to clean out automobile radiators. Do the job yourself. It costs only 10c (25c for the largest trucks and tractors). Just pour in Sani-Flush. Run the engine. Drain, flush and refill (*directions on the can*). That's all there is to it. And your radiator is sweet and clean. If you prefer, ask your garage or service station to do the job for you. Insist on Sani-Flush. It cannot injure motor or fittings. You'll find Sani-Flush in most bathrooms for cleaning toilets. Sold by grocery, drug, hardware, and five-and-ten-cent stores. 25c and 10c sizes. The Hygienic Products Company, Canton, Ohio.

**Sani-Flush** *Safe NOT CAUSTIC*  
 KEEPS RADIATORS CLEAN

**GLOVER'S**
